Renewed Flight in Wheat Mar-ket Weakens Grangers and Prices Generally Affected.

STEEL IS WELL SUPPORTED

Suspicion of Speculative Origin for Some of the Damaging Reports.

NEW YORK, August 20—vosterday's profit taking was in continued evidence in to-day's stock market. Resistance was offered to the decline until the fears aroused by the renewed flight in the wheat market weakened the grangers and turned prices in general downwards in sympathy. United States Steel proferred was determinedly supported in the early dealings, in spite of the further reports of unsettled conditions in that trade. Traders are suspicious of a speculiative origin for some of the damaging reports of steel trade developments and profess to detect a very large uncovered slort interest in United States Steel proferred. These factors have a deterrent effects on plans to attack the stock by short sales. Pennsylvania also was conspiciously firm and the anthracite carriers showed good resistance under the favorable influence of a reported agreement upon a plan for the sellement of differences between miners and operators in that trade. A violont break in Metropolitan sceutites, which carried Metropolitan Street Railway down with the gave added force to the reaction, and the latter weakening of the grangers caused the whole list to give way. The leading grain coarriers all lost in the neighborhood of a point. A fractional raily was interpulated by the further drop in Metropolitan sceutities and the closing was irregular. The bank statement furnished had no surprises. The moderate expansion made up an important part of the increase deposits that there was a sufficient cash increase to more than keep pace with the additional reserve requirement, thus adding \$32,776 to the surfaced advances.
